Maximise your business connectivity  
with Glamorgan Telecom Data Solutions

What you get with GT

- A wide range of scalable business grade connectivity, from simple broadband connections to dedicated leased lines
- The latest technology products and quality cabling to ensure the smooth running of your operations
- Standard leased lines to ensure a dedicated, high capacity internet connection that guarantees matching upload and download speeds
- Where leased lines are not viable, EFM\* provides an uncontended connection with high speeds of 2-20Mbps
- Supported by guaranteed service level agreements to ensure business continuity

**Guarantee reliable, smooth internet connectivity with Glamorgan Telecom Data Solutions**

\*EFM – AKA Ethernet in the First Mile, or a connection from the Ethernet core network to your premises
